

Mission Statement

Metro Legal Clinic supports individuals and the community by providing quality and affordable legal services by challenging policies and practices that harm low-income individuals. We strive to empower clients to advocate for themselves, for families and their communities

About Us

The Metro Legal Clinic was established in January of 2017. We have felt compelled to create a change in the community. We began as a small community outreach effort, but have expanded and are devoted to ongoing community service.

Megan Davitian
Director

REALITY OF JUSTICE IN AMERICA

As a nation we pledge "justice for all", but in reality millions of Americans are unable to access justice. Unable to receive protection for their livelihood, health and families. 1 in 3 Americans cannot afford an attorney. Without legal help they struggle in a cycle of fear, uncertainty and hopelessness. These men, women and children are our neighbors and they need our help.

Rebecca L. Wyatt
Attorney At Law
